		<p>Sonoma County, on lands surrounding the Mayacama Volunteer Fire Department, the site lies within the burn scar of the 2017 Nuns Fire. Since that event, dense bay-laurel resprouting, Douglas-fir encroachment, and accumulations of dead and downed vegetation have created hazardous conditions.</p> <p>- The project will treat approximately 9 acres along the road and adjacent fire road, reducing ladder fuels, thinning overgrown vegetation, and improving access. This work will help prepare the site for a future 23-acre broadcast prescribed fire led by Sonoma Valley Fire District and partners in 2027, serving as a demonstration and training area for community fire-resilience education.</p>
